

## 液压系统整体解决方案 Total Solution Of Hydraulic Systems

捷瑞可提供贯穿于工程船舶、海工装备整个生命周期的安全、可靠的液压系统整体解决方案。  
Jierui support customers with safe, reliable total solution throughout the lifetime of the marine and offshore hydraulic systems.

- 方案设计 Design
- 系统集成 Hydraulic system manufacturing
- 管路配置 Piping deploy
- 安装调试 Installation and commissioning
- 售后服务 Service

### 泵站 / HPU

选用工业应用领域的液压泵、阀等元器件，以满足苛刻工况下连续工作要求。  
Equipped with famous brand pumps, valves etc, with highly reliability.

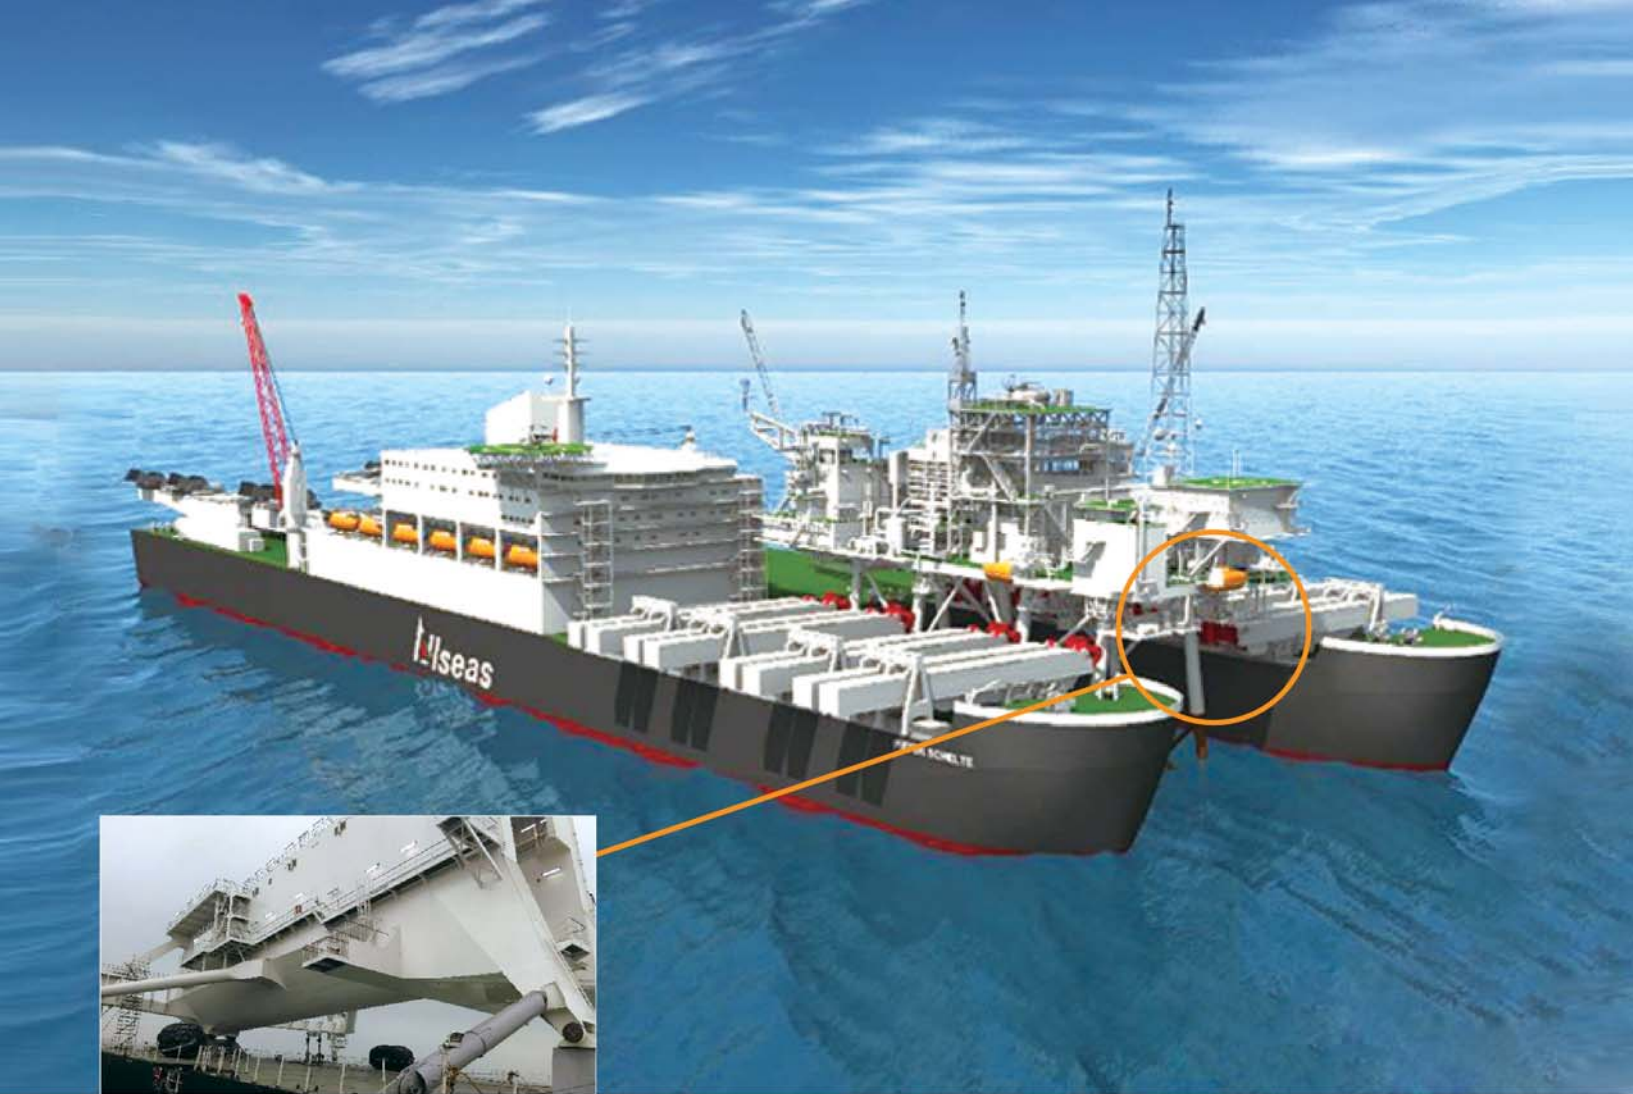

### 液压缸 / Cylinder

提供从镀铬镀层到激光熔覆图层的全面产品线，使耐磨性和耐腐蚀性达到完美的平衡，可以满足您的特定应用需求。  
Provided cylinder rod coating from Ni/Cr to laser flipping cover, with highly wear resistance and rotproofness, can meet variable requirement.

### 液压管路 / Pipe Systems

φ6~140mm 管径的免焊接管路连接技术，完美实现清洁、无泄漏的管路连接要求。  
Pipes connection is in non-welding, the size is φ6~140mm, can meet the requirement of no leakage, cleanliness.

总造价 31 亿美金的“Pieter Schelte”号平台拆装船、起重铺管船，是目前全球最大、最贵、最酷的“高富帅”海工装备，船东对于船上配套产品要求严格。捷瑞成功为其导管架前部输送机（STF）液压系统提供了从液压控制阀组、液压缸，到整个液压管路的全线产品。

The “Pieter Schelte” pip lay vessel, built cost reach 3.1 billion USD, is the largest, most expensive, coolest Marine equipment in the world. It's owner requirement is very strictly for the supplier. Jierui has already provided the valve manifolds, cylinder and hydraulics system circuit pipes for its Stinger Transition Frame (STF).

液压缸	Hydraulic Cylinder
液压阀组	Hydraulic Valve Manifolds
液压管路	Hydraulic Pipe Systems

入级：劳埃德船级社
